*Per hammock bed. All hammock models hold at least 317 kg. However, never exceed the Comfort/Safety limit to ensure best weight to strength ratio.

**To be fully winterized, hammocks must have a WeatherShield (adds about 212 grams where optional) and the ability to receive Clark's Z-Liner underquilt system.

***The MARK2 tarp (included in packing weight) is 9 oz and clips down to the outline of the hammock so that it can serve as an effective cover in ground-use.

Model	Mosquito-resistant fabric	Built-in stuff sack system	Non-wicking ropes strength (kg)	Anti-stress bungee cords	Velcro installed to receive underquilt	Bed length (m)	Bed Width (m)	Storage pockets under hammock	Pockets for small items inside hammock	Netted hood with zippered nylon closure	Access to storage from interior zippers	Dedicated interior pack storage
